INDEX TO VOLUME 91

POSTGRADUATE MEDICINE

JANUARY-JUNE 1992

SUBJECTS

ABDOMEN
• Chronic pain due to periostitis pubis, diagnosis and treatment. 91(1):147*
ACCIDENTS
• Falls in the elderly, assessing risks, tips on prevention. 91(8): 237*
ACNE
• Presenting features and therapeutic options. 91(6):96
ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS)
• Essential facts for primary care practitioners in 1992. 91(8):84*
• HIV infection, diagnosis, current therapy, and infectious complications. 91(8):115*
• HIV-related illness worldwide, current information. 91(8):99*
• Impact on resurgence of tuberculosis. 91(4):335
• Preventing HIV transmission, protecting clinicians and patients. 91(8):141*
ADOLESCENT MEDICINE: See Pediatrics
AGING
• Atrophic vaginitis, remedies and preventive measures. 91(6): 257*
• Cardiac benefits of exercise. 91(2):147
• Cataract development and removal, answering patient questions. 91(5):129*
• Delirium in hospitalized elderly patients. 91(4):463*
• Depression, recognizing masked symptoms and choosing appropriate therapy. 91(1):255*
• Falls in the elderly, assessing risks, tips on prevention. 91(8): 237*
• Hypertension in elderly, special concerns. 91(4):393*
• Older women, ideas for providing preventive, health-promoting care. 91(4):439*
• Polymyalgia rheumatica and temporal arteritis, clinical features, diagnosis, treatment, and prognosis of each. 91(5):215*

*Major clinical discussion
CR, Case Report
ED, Editorial
MEM, Memories Worth Sharing
PH, Physician-at-Large
PN, Patient Notes

• Pressure sores, treatment and prevention. 91(7):113*
• Sleep disorders in older patients, diagnosis and treatment. 91(4):403*
• Surgery in elderly, evaluation, minimizing risks and avoiding postoperative complications. 91(2):199*
• Syncope, higher risk in elderly, evaluation and treatment. 91(1): 129*
• Systolic hypertension, issues in pharmacologic management. 91(6):174
AIDS: See Acquired immunodeficiency syndrome (AIDS)
AIRWAY OBSTRUCTION
• Chronic obstructive pulmonary disease, breathing exercises. (PN) 91(1):303
• Chronic obstructive pulmonary disease, diagnosis. 91(1):61*
• Chronic obstructive pulmonary disease, drug treatment. 91(4): 473*
• Chronic obstructive pulmonary disease, evaluating severity of exacerbations and treating cause. 91(1):105*
• Chronic obstructive pulmonary disease, goals for outpatient management. 91(1):89*
• Chronic obstructive pulmonary disease, pharmacologic treatment for ambulatory patients. 91(1):71*
ALCOHOL
• Cardioprotective effects. 91(5): 271
ALCOHOLISM
• Acetaminophen hepatotoxicity in chronic alcoholics, recognition and differentiation from alcoholic hepatitis. 91(4):241*
• Cause of chronic liver disease, evaluation and treatment. 91(7): 89
• Relation to sudden death. 91(5):273
• Role in antisocial personality disorder. 91(4):349
ALLERGY
• Environmental control to limit allergic reactions. 91(4):215*
• Hay fever, or allergic rhinitis, diagnosis and treatment. 91(1): 225*
ANEMIA
• Pernicious, laboratory tests for prompt diagnosis, treatment. 91(2):231*

ANGINA PECTORIS: See Cardiovascular diseases
ANXIETY
• Panic disorder, recognition and management. 91(7):99*
ARTHRITIS: See Rheumatic diseases
ASTHMA
• Effect on sexual functioning. 91(5):456
• Exercise-induced bronchospasm, management. 91(3):155*

BEHAVIOR DISORDERS
• Münchausen's syndrome by proxy, illustrative cases and literature review. 91(5):197*
BITES AND STINGS
• Tick, Lyme disease, antibiotic treatment recommendations. 91(7):57*
• Tick, Lyme disease, special concerns in evaluation and treatment. 91(7):65*
BLEEDING: See Hemorrhage
BLOOD GLUCOSE
• Fine-tuning insulin therapy. 91(4):323*
• Monitoring levels in gestational diabetes, recommended insulin regimens. 91(5):395
BLOOD PRESSURE
• Hypertension: See Cardiovascular diseases
• Monitoring, in managing hypertension. 91(8):231
BRAIN
• Injury, predicting outcome with Glasgow Coma Scale. 91(8):261*
BREAST DISEASES
• Cancer, case in which renal cell carcinoma was primary disease. (CR) 91(7):145

CALCULI
• Common bile duct, detection and removal with endoscopic techniques. 91(4):113*
CANCER: See Neoplasms
CARDIOVASCULAR DISEASES
• Angina and congestive heart failure, development of nitrate tolerance, preventing it or minimizing its effect. 91(5):307*
• Angina pectoris, chronic stable, risk stratification and treatment. 91(4):165*
• Anticoagulant therapy, oral, newer indications and improved monitoring method. 91(2):285*
• Arterial thrombosis, report of case in previously healthy woman. (CR) 91(4):247

• Cardiac causes of syncope, evaluation. 91(5):321*
• Cardioprotective effect of regular alcohol consumption. 91(5): 271*
• Cerebral ischemia, recurrent, identifying and treating patients at risk. 91(6):197*
• Cerebrovascular disease in young adults, causes, diagnostic procedures, and prognosis. 91(4):123*
• Chest pain, evaluation to distinguish cardiac versus noncardiac causes. 91(8):155*
• Chest pain in patients with normal coronary arteries, evaluation and management. 91(6):213*
• Circulatory shock, diagnosis and treatment of different types. 91(7):121*
• Congestive heart failure with normal ejection fraction, therapy. 91(8):207*
• Cor pulmonale, differentiated from left ventricular failure, treatment implications. 91(6):227*
• Coronary artery disease in Hispanic Americans, effect of social and clinical factors. 91(4):179*
• Coronary artery disease in older women. 91(4):448
• Coronary artery disease in women, gender-based differences in risks, attitudes, management, and preventive strategies. 91(4):197*
• Coronary artery disease, latest information on prevention. 91(3): 179*
• Coronary artery disease, perfusion imaging in evaluation. 91(1): 185*
• Coronary artery disease, reducing risk by teaching patients healthy life-style. 91(4):147*
• Differentiating atypical chest pain from coronary artery disease. 91(5):257*
• Digitalis toxicity, current diagnosis and management. 91(6): 273*
• Effects of regular exercise, review of guidelines for exercise prescription. 91(2):130*
• Follow-up care after coronary intervention, guidelines for primary care physicians. 91(5):415*
• Hypertension and type II diabetes, pharmacologic management to reduce risk of renal injury. 91(3):87*

continued

• Hypertension and type II diabetes, risk for renal injury, physiologic approach to blood pressure control. 91(3):77*
• Hypertension, coronary risk factors, recommendations for appropriate drug and nondrug therapies. 91(8):225*
• Hypertension in elderly, special concerns. 91(4):393*
• Hypertension, increased risk for coronary artery disease. 91(4):154
• Hypertension, indications for ambulatory blood pressure monitoring. 91(1):263*
• Hypertension, role of exercise. 91(5):429*
• Hypertension, update on pharmacologic management. 91(6):163*
• In elderly undergoing surgery, preoperative assessment to minimize risks. 91(2):201
• Left ventricular hypertrophy, relationship to obesity and hypertension. 91(7):131*
• Microvascular angina. 91(6):213
• Palpitations and arrhythmias, causes, evaluation, and management. 91(1):241*
• Pericarditis and myocarditis, natural history, diagnosis, and treatment. 91(2):273*
• Peripheral vascular disease, role in foot wounds in diabetic patients. 91(4):100
• Pulmonary embolism, criteria for diagnosis and treatment. 91(7):73*
• Radiation-induced, management. 91(2):211*
• Reducing risk factors with drug therapy for hyperlipidemia. 91(5):162*
• Supraventricular tachyarrhythmias in intensive care unit, keys to recognition and effective drug treatment. 91(6):293*
• Temporal arteritis, preventing visual complications with aggressive treatment. (CR) 91(6):337
• Thromboembolic disease caused by hypercoagulable states, overview. 91(3):117*
• Underlying syncope in elderly. 91(1):129
• Venous thrombosis and pulmonary embolism, detection and treatment. 91(1):207*

CATARACTS
• Development and removal, answering patient questions. 91(5):129*
CHEMOTHERAPY: See Drugs, antineoplastic
CHILD ABUSE
• Münchausen's syndrome by proxy, illustrative cases and literature review. 91(5):197*
CHOLESTEROL
• Hyperlipidemia, reducing cardiovascular risk with drug therapy. 91(5):162*
• Lipid abnormalities and coronary artery disease, importance of healthy life-style. 91(4):147*
• Lipid metabolism and antihypertensive agents. 91(6):164
CIRCUMCISION
• Neonatal, advantages and disadvantages. 91(6):237*
COCAINE
• Toxic effects, emergency management. 91(1):161*
COLONIC DISEASES: See Gastrointestinal diseases
COMA
• Brain-injured patients, predicting outcome with Glasgow Coma Scale. 91(8):261*
COST-BENEFIT ANALYSIS
• Balancing potential benefits of drug therapy for hyperlipidemia with consequences of substantial financial burden. 91(5):186
• Canada's healthcare billing versus US system. (ED) 91(4):29
• Cutting costs and improving access, part of healthcare reform. (ED) 91(1):27
• Skewed market forces in healthcare industry. (ED) 91(2):29
CYSTIC FIBROSIS
• Sexual concerns. 91(5):455

DELIVERY OF HEALTHCARE
• Canada's healthcare billing. (ED) 91(4):29
• CLIA, scary preview of national health insurance? (ED) 91(6):29
• Cons of government regulation. (ED) 91(7):11
• Market economy and US healthcare mess. (ED) 91(3):27
• "Play-or-Pay"—soon an all-government healthcare system. (ED) 91(8):21
• Reform on its way. (ED) 91(1):27
• Revised CLIA laboratory regulations, a synopsis. (ED) 91(5):25
• Skewed market forces in healthcare industry. (ED) 91(2):29
DEPRESSION
• In elderly, recognizing masked symptoms and choosing appropriate therapy. 91(1):255*
DERMATITIS
• Contact, presenting features and therapeutic options. 91(6):104
DIABETES
• Diabetic retinopathy, management, role of primary care physician. 91(5):141*
• Diarrhea, causes and treatment. 91(8):179*
• Foot wounds, accelerating healing with use of topical growth factors. 91(4):98*
• Gestational, diagnosis and treatment, obstetric and postpartum management. 91(5):393*
• In elderly undergoing surgery, minimizing risks and avoiding postoperative complications. 91(2):206
• Insulin replacement programs, current trends. 91(4):323*
• Risk factor for coronary artery disease. 91(4):157
• Type II and hypertension, pharmacologic management to reduce risk of renal injury. 91(3):87*
• Type II and hypertension, physiologic approach to blood pressure control to reduce risk of renal injury. 91(3):77*
DIAGNOSTIC TECHNIQUES
• Cardiac studies in detection of cor pulmonale. 91(6):233
• Criteria for pulmonary embolism. 91(7):73
• For chlamydial infection. 91(1):122
• For sinusitis. 91(5):283
• Funduscopic examination to detect diabetic retinopathy. 91(5):141
• History taking and physical examination in evaluation of chest pain. 91(8):155*
• In diagnosing diastolic dysfunction. 91(8):208
• In risk stratification for patients with chronic stable angina. 91(4):167
• Laboratory testing for Lyme disease, guidelines for interpreting test results. 91(7):46*
• Liver function tests in diagnosis of chronic liver disease. 91(7):89
• Pharmacologic perfusion imaging for evaluation of coronary artery disease. 91(1):185*
• Studies to identify patients at risk for recurrent cerebral ischemia. 91(6):199
• Testing for HIV infection. 91(8):84*
• Three procedures confirm superficial fungal infection. 91(2):239
DIARRHEA
• In patients with diabetes, causes and treatment. 91(8):179*
DIET: See Nutrition
DRUG ABUSE
• Cocaine intoxication, emergency management. 91(1):161*
• "Designer drugs," recognition and management of toxic effects. 91(8):169*
• In persons with antisocial personality disorder. 91(4):349
DRUG INTERACTIONS
• Prescription with over-the-counter medications, potential problems. 91(8):191*
DRUG TESTING
• In workplace, procedures, guidelines, and interpretation of results. 91(4):287*
DRUG THERAPY
• Antihypertensive therapy, current issues. 91(6):163
• For chronic obstructive pulmonary disease, controversies about agents and their delivery. 91(4):473*
• For hyperlipidemia to reduce cardiovascular risk. 91(5):162*
DRUGS, ADVERSE REACTIONS
• Esophageal ulceration following ingestion of doxycycline capsules. (CR) 91(1):179
DRUGS, ANTIANGINAL
• For chronic stable angina. 91(4):173
DRUGS, ANTIARRHYTHMIC
• For supraventricular tachyarrhythmias. 91(6):299
DRUGS, ANTIBIOTIC
• Cephalosporins, advantages and shortcomings of specific agents. 91(2):301*
• For acute pyelonephritis. 91(2):264
• For Lyme disease, recommendations by stage and extent of infection. 91(7):57*
• Prophylactic regimens for patients with chronic obstructive pulmonary disease. 91(1):93

DRUGS, ANTICHOLINERGIC
• For chronic obstructive pulmonary disease. 91(1):81
DRUGS, ANTICOAGULANT
• For treatment of antiphospholipid antibody syndrome. (CR) 91(4):247
• Heparin therapy for thromboembolic disease. 91(1):210
• Oral, newer indications and improved monitoring method. 91(2):285*
• Warfarin therapy for thromboembolic disease. 91(1):213
DRUGS, ANTIDEPRESSANT
• For depression in elderly. 91(1):257
• In managing obsessive-compulsive disorder. 91(2):173
DRUGS, ANTIFUNGAL
• Topical and oral in treatment of superficial fungal infections. 91(2):249
DRUGS, ANTIHYPERTENSIVE
• Current issues and challenges in managing hypertension. 91(6):163*
• Indications and contraindications, adverse effects. 91(4):398
DRUGS, ANTIMICROBIAL
• For cutaneous bacterial infections. 91(6):129
DRUGS, ANTINEOPLASTIC
• Chemotherapy puts patients at risk for orofacial fungal infections. 91(5):349*
DRUGS, ANTIRETROVIRAL
• For HIV infection and related opportunistic infections. 91(8):116
DRUGS, BETA-AGONIST
• For chronic obstructive pulmonary disease. 91(1):77
DRUGS, BRONCHODILATOR
• Theophylline for chronic obstructive pulmonary disease. 91(1):71
DRUGS, CARDIAC GLYCOSIDE
• Digitalis toxicity, current diagnosis and management. 91(6):273*
DRUGS, CORTICOSTEROID
• For chronic obstructive pulmonary disease. 91(1).78
• For rheumatoid arthritis. 91(1):289; 91(2):80
• Glucocorticoids, guidelines for safe use and patient monitoring. 91(3):145*
DRUGS, DISEASE-MODIFYING ANTIRHEUMATIC
• As part of treatment regimen for rheumatoid arthritis. 91(1):289
• When and how to use them in treating rheumatoid arthritis. 91(2):75*
DRUGS, HORMONE
• Estrogen replacement therapy for atrophic vaginitis. 91(6):258
• Estrogens and heart disease, current findings. 91(3):183
DRUGS, IMMUNOSUPPRESSIVE
• For myocarditis. 91(2):281
• Increasing use in treatment of rheumatoid arthritis. 91(2):80
DRUGS, LIPID-LOWERING
• Bile acid sequestrants. 91(5):168
• Fibric acid derivatives. 91(5):178
• Nicotinic acid (niacin). 91(5):172
• Reductase inhibitors. 91(5):176
DRUGS, MUCOLYTIC
• For chronic obstructive pulmonary disease. 91(1):82
DRUGS, NITRATE
• Tolerance caused by long-term therapy, preventing it or minimizing its effect. 91(5):307
DRUGS, NONPRESCRIPTION
• Acetaminophen hepatotoxicity in chronic alcoholics, recognition and differentiation from alcoholic hepatitis. 91(4):241*
• Over-the-counter medications, potential drug interaction problems. 91(8):191*
DRUGS, NONSTEROIDAL ANTI-INFLAMMATORY (NSAID)
• For rheumatoid arthritis. 91(1):289
• For rheumatoid arthritis, toxic effects, when to use disease-modifying agents. 91(2):75*
DRUGS, PSYCHOTROPIC
• For panic disorder. 91(7):106
DRUGS, SALICYLATE
• Aspirin, role in preventing heart disease, current findings. 91(3):181
DRUGS, SEROTONIN-REUPTAKE INHIBITOR
• Research into effects on depression in elderly. 91(1):258
DRUGS, SIDE EFFECTS
• From pharmacologic perfusion imaging in evaluating cardiac status. 91(1):187
DRUGS, THROMBOLYTIC
• For deep venous thrombosis and pulmonary embolism. 91(1):214
DYSPNEA
• In chronic obstructive pulmonary disease. 91(1):62, 65
EAR DISEASES
• Otosclerosis, diagnostic tips, nonsurgical and surgical treatment. 91(8):279*
ELDERLY: See Aging
ELECTROPHYSIOLOGIC STUDY
• In diagnosis of supraventricular tachyarrhythmias. 91(6):293
• In evaluating palpitations and arrhythmias. 91(1):248, 251
EMERGENCY MEDICINE
• Acute poisoning, new standards regarding gastric decontamination. 91(2):179*
• Circulatory shock, diagnosis and treatment. 91(7):121*
• Heatstroke, causes and manifestations, lifesaving management strategies. 91(4):379*
• Intensive care unit and supraventricular tachyarrhythmias, diagnosis and treatment. 91(6):293*
• Intussusception in children, conservative treatment options. (CR) 91(1):283
• Life-threatening digitalis toxicity, current diagnosis and management. 91(6):273*
• Management of cocaine intoxication. 91(1):161
• Sudden nontraumatic visual loss, overview, when prompt action is necessary. 91(5):111*
ENDOCRINE DISORDERS
• Deficient pituitary secretion of hGH, growth hormone treatment. 91(5):367*
• Diabetes: See Diabetes
• Effect of glucocorticoids on hypothalamic-pituitary-adrenal (HPA) axis. 91(3):145
• Hair loss in women, differentiating causes of thinning hair and treatment. 91(4):417*
• Hormonal changes causing atrophic vaginitis. 91(6):248
• Hyperthyroidism, differentiating various forms and determining appropriate treatment. 91(5):229*
ENDOSCOPY
• Flexible sigmoidoscopy, primary care physician's role in screening for colon polyps. 91(3):137
• For detection and removal of common bile duct stones. 91(4):113*
• For percutaneous gastrostomy, risks and benefits. 91(1):277*
• In surveillance of premalignant lesions of gastrointestinal tract. 91(2):219*
EQUIPMENT
• Ambulatory blood pressure monitoring, indications, advantages and disadvantages. 91(1):263*
ETHICS, MEDICAL
• Guidelines for drug testing in workplace. 91(4):296
ETHNIC GROUPS
• Hispanic Americans and coronary artery disease, effect of social and clinical factors. 91(4):179*
EUTHANASIA
• Why and why not. (MEM) 91(2):166
EXERCISE
• Breathing, for COPD. (PN) 91(1):303
• Cause of bronchospasm in patients with asthma, management. 91(3):155*
• Effects on heart, review of guidelines for exercise prescription. 91(2):130*
• For healthy life-style and reduced risk of coronary artery disease. 91(4):158
• Role in patients with hypertension. 91(5):429*
• Role in preventing heart disease, current findings. 91(3):180
EXERCISE TESTING
• Component of follow-up care after coronary intervention. 91(5):420
EYE DISORDERS
• Cataract development and removal, answering patients' questions. 91(5):129*
• Corneal abrasions. (PN) 91(5):481
• Diabetic retinopathy, management, role of primary care physician. 91(5):141*
• Ocular manifestations of systemic disease. 91(1):195*
• Oculoglandular syndrome, case of cat-scratch disease without cat scratch. (CR) 91(5):207
• Sudden nontraumatic visual loss, overview. 91(5):111*
• Visual complications of temporal arteritis. (CR) 91(6):337

FOOT DISORDERS
• Wounds in diabetic patients, use of topical growth factors to accelerate healing. 91(4):98*
FUNGAL DISEASES
• Orofacial fungal infections in immunocompromised patients, nine pathogens. 91(5):349*
continued

• Superficial infections, treatment with topical and oral antifungal agents. 91(2):239*

GALLBLADDER DISEASES
• Common bile duct stones, detection and removal with endoscopic techniques. 91(4):113*
• Gallstone obstruction of colon, diagnosis and management. (CR) 91(8):249
• Postcholecystectomy syndrome, testing sphincter of Oddi for dysfunction, treatment options. 91(4):255*

GASTROINTESTINAL DISEASES
• Adenomatous colorectal polyps, colonoscopic surveillance for recurrence or disease progression. 91(2):222
• Barrett's esophagus, esophagoscopic surveillance for recurrence or disease progression. 91(2):219
• Chronic liver disease, overview. 91(7):89*
• Colorectal cancer, identifying and screening high-risk patients. 91(5):241*
• Colorectal cancer, recent research related to risk factors, screening, and adjuvant therapy. 91(1):153*
• Common bile duct stones, detection and removal with endoscopic techniques. 91(4):113*
• Diarrhea in patients with diabetes, causes and treatment. 91(8):179*
• Esophageal disorders causing chest pain in patients with normal coronary arteries. 91(6):214
• Esophageal ulceration following ingestion of doxycycline capsules. (CR) 91(1):179
• Gallstone obstruction of colon, diagnosis and management. (CR) 91(8):249
• Gastric emptying after acute poisoning. 91(2):180
• Inflammatory bowel disease, various forms of nutritional support, advantages and disadvantages of each. 91(5):407*
• Intussusception in children, conservative treatment options. (CR) 91(1):283
• Irritable bowel syndrome, relieving symptoms to improve daily function. 91(6):315*
• Polyps, diminutive, role of flexible sigmoidoscopy, management and follow-up care. 91(3):137*
• Postcholecystectomy syndrome, testing for sphincter of Oddi dysfunction, treatment options. 91(4):255*
• Ulcerative colitis, surveillance for disease progression. 91(2):220

GENETIC DISORDERS: See Hereditary diseases
GERIATRICS: See Aging
GROWTH
• Delayed or slowed, causes, candidates for human growth hormone treatment. 91(5):367*
GYNECOLOGY: See Obstetrics/Gynecology

HAIR DISEASES
• Hair loss in women, differentiating causes of thinning hair and treatment. 91(4):417*
HEADACHE
• Cluster, signs and symptoms, treatment. 91(3):97*
• In giant cell arteritis, clinical and laboratory findings, pharmacologic management. 91(2):107
HEALTH PROMOTION
• Exercise and hypertension, results and recommendations based on epidemiologic studies. 91(5):429*
HEART DISEASE: See Cardiovascular diseases
HEAT EXHAUSTION
• Heatstroke, causes and manifestations, lifesaving management strategies. 91(4):379*
HEMATOLOGIC AGENTS
• Hematopoietic growth factors, properties, availability, and present and future roles in medicine. 91(8):299*
HEMATOLOGIC DISEASES
• Bone marrow dysfunction, treatment with hematopoietic growth factors. 91(8):299*
• Hemochromatosis, laboratory diagnosis and appropriate therapy. (CR) 91(4):137
• Hypercoagulable states, hereditary and acquired, overview. 91(3):117*
• Pernicious anemia, laboratory tests for prompt diagnosis, treatment. 91(2):231*
HEMORRHAGE
• Complication of oral anticoagulant therapy. 91(2):288
HEPATITIS
• Alcoholic, differentiation from acetaminophen hepatotoxicity in chronic alcoholics. 91(4):241*
• Viral, five types, summary of current knowledge. 91(3):109*
HEREDITARY DISEASES
• Hypercoagulable state, overview. 91(3):117*
• Risk factors for colorectal cancer. 91(1):153
HORMONES
• Estrogens and heart disease, current findings. 91(3):183
• Human growth, candidates for treatment. 91(5):367*
HYPERTENSION: See Cardiovascular diseases
HYPERTHYROIDISM
• Differentiating various forms and determining appropriate treatment. 91(5):229*

IMMUNIZATION
• Guidelines for travelers to Kuwait and Iraq. 91(2):194
• Recommendations for older women. 91(4):442
IMMUNOLOGIC DISEASES
• Chronic fatigue syndrome, advances in diagnosis and treatment. 91(6):245*
IMMUNOTHERAPY
• Digoxin immune Fab in treatment of digitalis toxicity. 91(6):278
• In management of allergic rhinitis. 91(1):231
INFECTION
• Acute pyelonephritis, prompt diagnosis and therapy to prevent complications. 91(2):261*
• Chlamydial, diagnostic advances, CDC recommendations on screening and treatment. 91(1):120*
• Cutaneous bacterial, laboratory diagnosis and treatment. 91(6):119*
• Fungal, orofacial, clinical manifestations of nine pathogens of risk to immunocomprised. 91(5):349*
• Fungal, superficial, treatment with topical and oral antifungal agents. 91(2):239*
• HIV, essential facts in 1992. 91(8):84*
• Human immunodeficiency virus, current information about virus worldwide. 91(8):99*
• Human immunodeficiency virus, diagnosis, current therapy, and infectious complications. 91(8):115*
• Human immunodeficiency virus, preventing transmission. 91(8):141*
• In foot wounds in diabetic patients. 91(4):102
• Lyme disease, interpreting laboratory results. 91(7):46*
• Lyme disease, recommendations for antibiotic treatment by stage and extent of infection. 91(7):57*
• Lyme disease, special concerns in evaluation and treatment. 91(7):65*
• Oculoglandular syndrome, case of cat-scratch disease without cat scratch. (CR) 91(5):207
• Opportunistic, in HIV-infected patients, treatment recommendations. 91(8):117
• Pericarditis and myocarditis, natural history, diagnosis, and treatment. 91(2):273*
• Prevention, component of managing chronic obstructive pulmonary disease. 91(1):93
• Risks for travelers to Persian Gulf area. 91(2):190
• Sexually transmitted diseases, identification and treatment. 91(4):359*
• Sinusitis in adults, diagnosis and treatment. 91(5):281*
• Treatment with cephalosporins, advantages and shortcomings of specific agents. 91(2):301*
• Tuberculosis, resurgence in, screening and recognition. 91(4):333*
INSULIN
• Regimens for treatment of gestational diabetes. 91(5):396
• Resistance and antihypertensive agents. 91(6):171
• Therapy, current trends. 91(4):323*
INSURANCE, HEALTH
• "Play-or-pay"—soon an all-government healthcare system. (ED) 91(8):21
INTESTINAL DISEASES: See Gastrointestinal diseases
IRON
• Overload in hemochromatosis, laboratory diagnosis and appropriate therapy. (CR) 91(4):137

JOINTS
• Gouty arthritis, diagnosis and management. 91(2):115*
• Pain, what to do. (PN) 91(2):327
• Replacement for patients with arthritis, indications, preoperative considerations and postoperative monitoring. 91(4):267*

continued

KIDNEY DISEASES
• Acute pyelonephritis, prompt diagnosis and therapy to prevent complications. 91(2):261*
• Effects of antihypertensive drugs. 91(3):87*
• Renal cell carcinoma metastatic to breast, report of case. (CR) 91(7):145

KIDNEY FAILURE
• Caused by benign obstructive uropathy in man with prostatic carcinoma, report of case. (CR) 91(2):155

LABORATORY INVESTIGATION
• CLIA, excerpts from new regulations printed in *Federal Register.* (ED) 91(6):29
• Clues to causes of palpitations and arrhythmias. 91(1):242
• Diagnostic characteristics of pleural effusion. 91(5):449
• Drug testing in workplace, procedures, guidelines, and interpretation of results. 91(4):287*
• Elevated ESR, distinguishing polymyalgia rheumatica and temporal arteritis. 91(5):216
• For hemochromatosis. (CR) 91(4):137
• In diagnosis of pernicious anemia. 91(2):232
• Interpreting tests for Lyme disease. 91(7):46*
• Revised CLIA laboratory regulations, a synopsis. (ED) 91(5):25
• Testing for HIV infection. 91(8):84*
• Tests for hyperthyroidism. 91(5):230
• Workup for patients with suspected chronic fatigue syndrome. 91(6):248
LASERS
• Panretinal photocoagulation for diabetic retinopathy. 91(5):147
LIVER DISEASES
• Chronic, overview. 91(7):89*
• Hepatitis A, B, C, D, and E, summary of current knowledge. 91(3):109*
LUNG DISEASES
• Cause of cor pulmonale, treatment implications of right versus left ventricular impairment. 91(6):227*
• Cavitary, analyzing radiographic patterns. 91(8):313*
• Chronic obstructive pulmonary disease and other pulmonary problems, effect on sexual functioning. 91(5):455*
• Chronic obstructive pulmonary disease, breathing exercises. (PN) 91(1):303
• Chronic obstructive pulmonary disease, drug treatment. 91(4):473*
• Chronic obstructive pulmonary disease, evaluating severity of exacerbations and treating cause. 91(1):105*
• Chronic obstructive pulmonary disease, goals for outpatient management. 91(1):89*
• Chronic obstructive pulmonary disease, identifying irreversible airway obstruction. 91(1):61*
• Chronic obstructive pulmonary disease, pharmacologic treatment for ambulatory patients. 91(1):71*
• In elderly undergoing surgery, minimizing risks and avoiding postoperative complications. 91(2):199
• Pleural effusion, radiographic and laboratory testing to determine cause. 91(5):439*
• Pulmonary complications after surgery, preventive and therapeutic measures. 91(3):167*
• Pulmonary embolism and deep venous thrombosis, detection and treatment. 91(1):207*
• Pulmonary embolism, criteria for diagnosis and treatment. 91(7):73*

MEDICAL PRACTICE
• Cons of government regulation. (ED) 91(7):11
• Governmental interference and CLIA—scary preview of national health insurance. (ED) 91(6):29
• Revised CLIA laboratory regulations, a synopsis. (ED) 91(5):25
• Satisfaction in helping save a life. (MEM) 91(6):69
METABOLIC DISEASES
• Hemochromatosis, laboratory diagnosis and appropriate therapy. (CR) 91(4):137
METABOLISM
• Lipid, effect of antihypertensive agents. 91(6):164
MINORITY GROUPS
• Hispanic Americans and coronary artery disease, effect of social and clinical factors. 91(4):179*

MOUTH DISEASES
• Common lesions of oral mucosa, guide to diagnosis and treatment. 91(6):141*
MUSCULOSKELETAL DISORDERS
• Chemical denervation in muscle using botulinum toxin therapy, use in focal dystonias. 91(6):327*
• Joint replacement for patients with arthritis, role of primary care physician. 91(4):267*
• Osteoporosis in older women, optimal care includes prevention and treatment strategies. 91(4):447
• Skeletal dysplasia, effects of human growth hormone treatment. 91(5):381

NASAL DISORDERS
• Sinusitis in adults, acute and chronic, diagnosis and treatment. 91(5):281*
NEOPLASMS
• Breast mass, initial presentation of renal cell carcinoma. (CR) 91(7):145
• Cavitary lesions, reading radiographic patterns. 91(8):313
• Colorectal cancer, identifying and screening high-risk patients. 91(5):241*
• Colorectal cancer, recent research related to risk factors, screening, and adjuvant therapy. 91(1):153*
• Diminutive polyps, management and follow-up care. 91(3):137*
• Premalignant lesions of gastrointestinal tract, recommended surveillance regimens. 91(2):219*
NEUROLOGIC MANIFESTATIONS
• Brain-injured patients, predicting outcome with Glasgow Coma Scale. 91(8):261
• Caused by pernicious anemia, recommended treatment to prevent permanent deficits. 91(2):231
• Cluster headache, signs and symptoms, treatment. 91(3):97*
• Complications of cervical arthritis, management methods. 91(4):309*
• Delirium in hospitalized elderly patients. 91(4):463*
• Diabetic neuropathy leading to foot wounds. 91(4):98
• Focal dystonias and other neurologic disorders, botulinum toxin therapy. 91(6):327*
• Of heatstroke. 91(4):380
• Stroke: See Stroke
• Syncope, common causes, identification of high-risk patients. 91(5):321*
• Temporal arteritis, preventing visual complications with aggressive treatment. (CR) 91(6):337
NUTRITION
• Cholesterol levels and risk of coronary artery disease. 91(4):147
• Dietary guidelines for treatment of gestational diabetes. 91(5):394
• Dietary recommendations for older women. 91(4):441
• Fish and fish oils in preventing heart disease, current findings. 91(3):182
• Obesity and risk of coronary artery disease. 91(4):157
• Parenteral, enteral, and oral in patients with inflammatory bowel disease, advantages and disadvantages. 91(5):407*
• Percutaneous endoscopic gastrostomy, benefits and risks. 91(1):277*

OBESITY
• Link to coronary artery disease. 91(3):179
• Relationship to left ventricular hypertrophy. 91(7):131*
OBSESSIVE-COMPULSIVE DISORDER
• Characteristic features, pharmacologic management. 91(2):171*
OBSTETRICS/GYNECOLOGY
• Atrophic vaginitis, remedies and preventive measures. 91(6):257*
• Gestational diabetes, diagnosis and treatment, obstetric and postpartum management. 91(5):393*
OCCUPATIONAL DISEASES
• Risk of HIV infection. 91(8):141
OCULAR DISORDERS: See Eye disorders
OTORHINOLARYNGOLOGIC DISEASES
• Allergic rhinitis, or hay fever, diagnosis and treatment. 91(1):225*
• Motion sickness. (PN) 91(7):172
• Otosclerosis, diagnostic tips, nonsurgical and surgical treatment. 91(8):279*

continued

• Sinusitis in adults, acute and chronic, diagnosis and treatment. 91(5):281*

OXYGEN
• Long-term therapy for cor pulmonale. 91(6):234
• Therapy for chronic obstructive pulmonary disease. 91(1):90

PAIN
• Abdominal, chronic, due to periostitis pubis, diagnosis and treatment. 91(1):147*
• After cholecystectomy, evaluation, with emphasis on sphincter of Oddi dysfunction, treatment options. 91(4):255*
• Chest, atypical, identifying source, characteristics of ischemic and nonischemic pain. 91(5):257*
• Chest, evaluation for cardiac versus noncardiac causes. 91(8):155*
• Chest, in patients with normal coronary arteries, evaluation and management. 91(6):213*
• Headache: See Headache
• Joint, what to do. (PN) 91(2):327
• Nonarticular syndromes, differential diagnosis and therapeutic options. 91(2):95*
• Polymyalgia rheumatica and giant cell arteritis, clinical and laboratory findings, pharmacologic management. 91(2):107*

PARASITIC DISEASES
• Scabies. (PN) 91(6):357
• Scabies, signs and symptoms, diagnosis and treatment. 91(6):263*

PATIENT COMPLIANCE
• Antihypertensive therapy. 91(6):183

PATIENT EDUCATION
• Breathing exercises for COPD. (PN) 91(1):303
• Corneal abrasions. (PN) 91(5):481
• Dry skin. (PN) 91(3):197
• Examining spots on skin, what to watch for. (PN) 91(8):361
• Importance for patients experiencing panic attacks. 91(7):105
• Joint pain, what to do. (PN) 91(2):327
• Means to improving quality of life for patients with COPD. 91(1):94
• Motion sickness. (PN) 91(7):172
• Scabies. (PN) 91(6):357
• Stress. (PN) 91(4):501
• Teaching healthy life-style to reduce risk of coronary artery disease. 91(4):147*

PATIENTS
• Elderly, hospitalized, dealing with delirium. 91(4):463*
• How to avoid mistaking a personality for a disease. (MEM) 91(1):173
• Magician finds real magic in prescription. (MEM) 91(8):49
• Need for receptive and compassionate physicians. (MEM) 91(5):93
• Recognizing valor in unlikely hero. (MEM) 91(7):159
• Risk of HIV infection from healthcare workers. 91(8):149

PEDIATRICS
• Adolescents, acne vulgaris, presenting features and treatment. 91(6):96
• Allergic rhinitis, or hay fever, in children, diagnosis and treatment. 91(1):225*
• Candidates for human growth hormone treatment. 91(5):367*
• Child abuse via Münchausen's syndrome by proxy, illustrative cases and literature review. 91(5):197*
• Intussusception, conservative treatment options. (CR) 91(1):283
• Juvenile rheumatoid arthritis, cervical spine involvement. 91(4):313
• Neonatal circumcision, advantages and disadvantages. 91(6):237*
• Scabies, signs and symptoms, diagnosis and treatment. 91(6):263*

PHYSICIAN-PATIENT RELATIONS
• Emphasizing speed and efficiency at the cost of receptiveness and compassion. (MEM) 91(5):93
• Simple encouragement often suffices. (MEM) 91(3):43

PHYSICIANS
• Comforters in life and death. (MEM) 91(4):237

POISONING
• Acute emergencies, new standards regarding gastric decontamination. 91(2):179*
• Digitalis toxicity, current diagnosis and management. 91(6):273*

POLYPS
• Diminutive, role of flexible sigmoidoscopy in discovery, management and follow-up care. 91(3):137*

PREGNANCY: See Obstetrics/Gynecology

PREVENTIVE MEDICINE
• Environmental control to limit allergic symptoms and reactions. 91(4):215*
• Healthy life-style to reduce risk of coronary artery disease. 91(4):147*
• Providing health-promoting care for older women. 91(4):439*
• Risk factor reduction and coronary artery disease, current findings. 91(3):179*
• Strategies for preventing coronary artery disease in women. 91(4):200

PSYCHIATRIC/PSYCHOSOCIAL DISORDERS
• Antisocial personality disorder, clinical features, treatment. 91(4):341*
• Delirium in hospitalized elderly patients. 91(4):463*
• Depression in elderly, recognizing masked symptoms and choosing appropriate therapy. 91(1):255*
• Emotional factors in irritable bowel syndrome. 91(6):315
• Münchausen's syndrome by proxy, cases illustrating this little-known type of abuse. 91(5):197*
• Obsessive-compulsive disorder, characteristic features, pharmacologic management. 91(2):171*
• Panic disorder, recognition and management. 91(7):99*
• Panic disorder, role in patients experiencing chest pain with normal coronary arteries. 91(6):216
• Sexual concerns of patients with pulmonary diseases. 91(5):455
• Sleep disorders in older patients, diagnosis and treatment. 91(4):403*
• Stress. (PN) 91(4):501

PSYCHOTHERAPY
• For mild to moderate depression in elderly. 91(1):257

PUBLIC HEALTH
• Chlamydial infection, CDC recommendations on screening and treatment. 91(1):120*
• "Designer drugs," recognizing and managing their toxic effects. 91(8):169*
• HIV and risks to healthcare workers. 91(8):92
• HIV-related illness worldwide, current information. 91(8):99*
• Human immunodeficiency virus infection, preventing transmission. 91(8):141*
• Resurgence in tuberculosis, screening and recognition. 91(4):333*
• Sexually transmitted diseases—chlamydial, herpes simplex virus, and human papillomavirus infections—identification and treatment. 91(4):359*
• Sexually transmitted diseases, increasing virulence, physician's role as advocate of abstinence and monogamy. 91(5):297

PULMONARY DISEASES: See Lung diseases; Respiratory diseases

RADIOGRAPHY
• Chest, in detecting cor pulmonale. 91(6):230
• Patterns in cavitary lung disease. 91(8):313*

RADIOLOGIC DIAGNOSIS
• For pleural effusion. 91(5):440
• Imaging studies for diagnosis of sinusitis. 91(5):283

RADIOTHERAPY
• Mediastinal, resulting cardiac abnormalities and their management. 91(2):211*

RECTAL DISEASES
• Colorectal cancer, identifying and screening high-risk patients. 91(5):241*
• Colorectal cancer, recent research related to risk factors, screening, and adjuvant therapy. 91(1):153*

RENAL DISEASES: See Kidney diseases

RESPIRATORY DISEASES
• Acute respiratory failure in COPD, treatment and mechanical ventilation. 91(1):107
• Asthma and other respiratory problems, effect on sexual functioning. 91(5):455*
• Bronchospasm, exercise-induced, in patients with asthma, management. 91(3):155
• Cavitary lung disease, reading radiographic patterns. 91(8):313*

continued

• Pleural effusion, radiographic and laboratory testing to determine cause. 91(5):439*
• Tuberculosis, screening, clinical features that aid recognition. 91(4):333*

RESPIRATORY THERAPY
• Postoperative recommendations for pulmonary complications. 91(3):168

RHEUMATIC DISEASES
• Acute gouty arthritis, diagnosis and management. 91(2):115*
• Cervical spine involvement, complications and management. 91(4):309*
• Giant cell arteritis and polymyalgia rheumatica, characteristic clinical and laboratory findings, pharmacologic management. 91(2):107*
• Joint replacement for pain relief and increased mobility, role of primary care physician. 91(4):267*
• Lyme disease, interpreting results of laboratory testing. 91(7):46*
• Lyme disease, recommendations for antibiotic treatment by stage and extent of infection. 91(7):57*
• Lyme disease, special concerns in evaluation and treatment. 91(7):65
• Nonarticular pain syndromes, differential diagnosis and therapeutic options. 91(2):95*
• Polymyalgia rheumatica and temporal arteritis, clinical features, diagnosis, treatment, and prognosis of each of two related conditions. 91(5):215*
• Rheumatoid arthritis, goals of treatment, use of disease-modifying antirheumatic drugs. 91(1):285*
• Rheumatoid arthritis, new thoughts on therapeutic agents. 91(2):75*
• Temporal arteritis, preventing visual complications with aggressive treatment. (CR) 91(6):337

SCREENING
• For cancer in older women. 91(4):449
• For colorectal cancer. 91(5):247
• For colorectal cancer in asymptomatic adults. 91(1):154
• For tuberculosis, high-risk populations. 91(4):336
• Pregnant women for gestational diabetes. 91(5):393

SEXUAL BEHAVIOR
• Abstinence and monogamy, physicians as advocates, role in decreasing incidence of sexually transmitted diseases. 91(5):297
• Concerns of patients with pulmonary disease. 91(5):455*

SEXUALLY TRANSMITTED DISEASES
• Chlamydial, herpes simplex virus, and human papillomavirus infections, identification and treatment. 91(4):359*
• Chlamydial infection, diagnostic advances, CDC recommendations on screening and treatment. 91(1):120*
• Commentary, advocating abstinence and monogamy. 91(5):297
• Relation to circumcision in men. 91(6):239

SHOCK
• Circulatory, diagnosis and treatment of different types. 91(7):121*

SINUSITIS
• In adults, acute and chronic, diagnosis and treatment. 91(5):261

SKIN DISEASES
• Bacterial infections, laboratory diagnosis and treatment. 91(6):119*
• Black, brown, and red spots. (PN) 91(8):361
• Dry skin. (PN) 91(3):197
